

Facilitating your **VOICE** Business

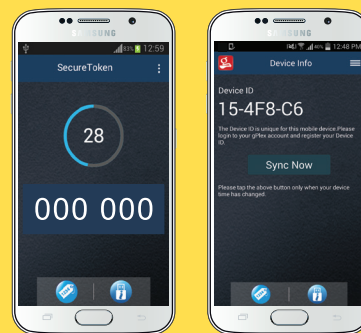

gPlex® hosted Softswitch for retail service is a cost effective alternative to acquiring expensive carrier grade Softswitch. The service is offered in variant capacity ranging from 100 to 1000 channels. It comes with user friendly web interface enabling flexible routing, real-time monitoring and offers reliable billing. Smart security apps ensure protection from unauthorized access. Users may operate hosted gPlex® Softswitch even using an Internet enabled cell phone.
